## **THE NATIONAL EQUINE ACTIVITY LIABILITY LAW**

**To All Riders, Drivers, Students and Guests:**

**The State of Arizona in 1994 passed the Equine Activity Liability Law through a legislative act designed to limit frivolous and unnecessary lawsuits and for the protection of the Horse Businesses in the State of Arizona.**

**This law recognizes the fact that horses are unpredictable and cannot be controlled all the time.**

**An equine professional or an Equestrian Center is not liable for injury or death of a participant in equine activities resulting from the inherent risks of equine activities pursuant to RCW 4.24.530**

**Participants accept responsibility for their own riding level and they are responsible for their own performance on and around the horse.**

**I acknowledge that I have read and understand the above statement.**
